

Stephen Holbrook is regarded by many as being the most consistently accurate clairvoyant medium demonstrating in the UK today.

Night after night he offers conclusive proof that there is not only 'life after death' but there can be communication between the two worlds. Even the most die-hard sceptics have changed their minds after sitting through one of his electrifying (and frequently moving) presentations.

Stephen demonstrates all over the country – he is young fresh and dynamic and yet at the same time down to earth. It is easy to understand why people enjoy his presentations so much, he is specific and to the point, frequently naming names, dates, addresses, and even identifying health conditions.

Working in the tradition of the late Doris Stokes, he is only just half the age at which she reached the height of her fame. He is more in tune with TV Medium Colin Fry and John Edwards. Stephen has actually been offered his own TV show several times by different companies but so far has declined, feeling that while his children are still at school he is not ready for such national celebrity.

He raises thousands of pounds every year for a variety of different charities, is always approachable and never evangelical.

Jane Jackson is an Internationally Known Spiritual Medium. She was born and bred in Castleford West Yorkshire and is 43 years of age. This amazing gift has been with her for many many years. Known to the Stars, it's difficult to get an appointment with Jane as she is booked up for 3 years

(that says it all doesn't it). Jane was such a success in 2008 that we have asked her to join us again on yet another journey.

If you want to see Jane make sure you book your appointment at the time of booking the cruise. We are sure that you wouldn't want to be disappointed and miss the chance of a reading with this wonderful talented lady.
